Quality assurance of pharmaceuticals

Durbin PLC is licensed as a Wholesale Dealer for Pharmaceuticals by the Medicines & Healthcare Products Regulatory Authority (MHRA), a division of the UK Department of Health.

All products supplied by Durbin PLC are sourced from manufacturers who have provided evidence that their products are made according to internationally accepted standards and under Good Manufacturing Practice (GMP) conditions.

All pharmaceuticals and raw materials supplied by Durbin PLC are manufactured to BP (British Pharmacopoeia), USP (United States Pharmacopoeia) or other internationally accepted standards. Manufacturers Material Safety Data Sheets are available for raw materials. All pharmaceuticals manufactured outside of the UK and supplied by Durbin PLC are supported by the following quality assurance documentation:

- a) GMP certificate for the manufacturing factory
- b) Certificate of Analysis (CA) for each batch of a product
- c) Certificate of Pharmaceutical Product (CPP) for each product (if requested by the customer)

All pharmaceuticals manufactured and purchased within the UK and the Irish Republic are licensed by the MHRA and comply with all UK regulatory requirements (including Post Marketing Surveillance). Note that manufacturers subject to UK licensing requirements normally do not issue GMP, CA and CPP but do show Product Licence number on pack.

All substances classed as Hazards are packed and transported according to internationally agreed standards and regulations (as advised by the UN Economic & Social Council Committee of Experts on the Transport of Dangerous Goods, the UK Health and Safety Executive and other relevant authorities).
